

# ARDEN WELSH

College Applicant  
Aspiring Physicians Assistant

Bolingbrook, IL USA

## ABOUT ME

"I spend much of my time outside of school as a private piano instructor. I've developed such amazing bonds with the children I work with, in ways I never would have imagined. I've currently grown my business to over 15 clients.

There is always room for new things in my life and I could not be more grateful for that. I love spending time outside, and with my family. I'm proud of my heritage (Italian and Irish) and the fact that it's celebrated in our home. I'm looking forward to my future college studies and the unknown journey ahead."
